Education

University of the Arts London **MA Games Design** ***Sep 2026 - Present***

- **Relevant Coursework:** Design and Prototyping, Understanding Play, Critical Play and Development

Guangzhou Academy of Fine Arts **BA Interaction Design** ***Sep 2021 - Jun 2025***

- **Relevant Coursework:** Advanced User Research, Information and Visualization, Design Thinking, Ergonomics

Experience

NetEase **Identity V** ***Jul 2025 - Sep 2026***

Gaming Interaction Design Intern *Hangzhou, China*

- **Interaction Design:** Designed task flows for Identity V's systems, events and in-game shop based on player expectations and established interaction patterns; developed annotated Figma prototypes detailing screen transitions, decision points and alternative flows to communicate intended behaviour to the development team
- **Usability Testing:** Conducted usability testing and analysed player feedback to identify navigation and comprehension issues, recording task completion, navigation errors and points of hesitation. Prioritised findings using severity ratings, refined interaction flows and validated revised prototypes with players before release
- **Design QA:** Coordinated design handoff with game designers, UI artists and engineers; reviewed development builds against interaction specifications, checked edge cases, visual consistency, missing component states and incorrect screen transitions, and tracked implementation issues through resolution before updates went live

NetEase **Fantasy Westward Journey Mobile** ***Dec 2024 - Jun 2025***

Gaming Interaction Design Intern *Guangzhou, China*

- **Information Architecture:** Analysed player tasks to reorganise feature groups and navigation hierarchy across Fantasy Westward Journey Mobile's systems and events; prioritised frequently used actions and consolidated redundant entry points and shortened navigation paths to improve findability and reduce interaction cost
- **UI Specifications:** Defined interaction patterns for controls, modal dialogs and system messages; specified default, selected, disabled, loading and error states, visual feedback, and animation duration and easing in shared UI specifications for UI artists and engineers, keeping interactions consistent across systems and events
- **UX Optimisation:** Audited legacy interfaces using heuristic evaluation and developed redesign proposals that accounted for established player habits, game rules and technical constraints; agreed the scope of changes with game designers and delivered approved interaction designs and annotated specifications for the updated release

Campus

Industrial Design College A Center **Member** ***Jul 2023 - Jun 2025***

- Developed graphic layouts and 3D models for college design projects; explored concepts through sketching and digital modelling, then refined visual hierarchy, typography and composition across presentation materials

School Street Dance Team **Captain** ***May 2022 - Apr 2023***

- Led hip-hop rehearsals and coordinated preparation for performances; planned practice schedules, rehearsed routines in sections and refined movement timing, transitions and group formations before final rehearsals

School Basketball Team **Player** ***Oct 2021 - Oct 2023***

- Played for the school basketball team for two years, taking part in regular team training and competitive matches

Others

- **Software:** Figma, XMind, Unity, Photoshop, Illustrator, After Effects, Premiere Pro, Procreate, Cinema 4D, Blender, Rhino, Creo, SPSS, Word, PowerPoint, Media Encoder, Lightroom, Notion, Power BI
- **Equipment:** Laser engraving machines, camera equipment, drones, 3D printing, rapid prototyping
- **Interests:** Piano (Level 10), Hip-hop Dance, Basketball, Hiking, Climbing, Drawing, Calligraphy, Travel
